

ANGELO COMISSO TRIO

“ NUMEN ”

In his new Trio pianist Angelo Comisso meets with Luca Colussi (drums) and Alessandro Turchet (double bass) two sensitive partners who are following him unconditionally in his playful virtuosity conducting into a seemingly completely improvised flow of infinite harmony and stirring passion. "Numen" presents melodic lines submitting themselves to a natural law of beauty. Comisso's classical training is giving the baseline for a jazz that is firmly anchored in the European dimension of sound image and phrasing, but at the same time opens a door to wide, expansive worlds of sounds that change and evolve dazzlingly.

With a Mediterranean lightness, the Trio leads to melodic temptations, ethnic references, lyrical suggestions and visionary atmospheres, always in an absolute balance of timbres. Informal, unadulterated, humble - simply following a divine command.
